American Railroad Journal.

New York, Saturday, August 2, 1879.

Railroads of the United States.

From the introductory article to the "Manual of the Railroads of the United States, 1879, HENRY V. POOR," we learn that during the year ending Dec. 31, 1878, 2,694 miles of new line were opened, the total mileage in operation in the United States at that date being 81,841 miles. In 1830 there were but 23 miles in operation. The construction of these routes has again been entered upon with renewed activity and spirit, and is likely to continue.

A remarkable feature in the railroad operations of the country for several years past has been the enormously increased tonnage in the face of a large falling off of earnings. The decline in earnings has been due to the very great reductions in charges for transportation. Within the last decade the tonnage traffic of our railroads longest in operation has been fully doubled, while there has been only an inconsiderable increase in earnings from this source. Since 1873, the year in which the earnings of our railroads reached their maximum, the increase of their tonnage has equaled 50 per cent, although the period has been one of unexampled business depression. A reference to the statements of the several roads will show that at the very time at which there has been the greatest complaint of hard times, the movement of merchandise has steadily and largely increased.

The tonnage of the New York Central and Hudson River Railroad in 1867 equaled 3,190,840 tons; in 1873, 4,393,955 tons, and in 1878, 8,175,535. The earnings from freight on this road in 1867 equaled $14,066,386; in 1873, $19,616,017, and in 1878, $19,045,830. The tonnage for the first five years increased over 86 per cent, while the earnings were slightly reduced. The rate for the transportation of freight in 1873 equaled 1.572 cent per ton; in 1878, .910 of a cent per ton per mile. Had the rates of 1873 on the New York Central and Hudson River Railroad been maintained, the earnings of that road, the past year, from freight, would have equaled $31,000,000, in place of $19,045,830, the amount received. The experience and example of this road may serve as an illustration for those of the whole country.

Another favorable feature connected with our railroads is the reorganization of the affairs of great numbers of those that had become pecuniarily embarrassed. Their organization has, as a rule been upon a plan or scheme to reduce their interest-bearing securities to a sum the interest on which could in all probability be met by the accruing incomes, leaving dividends on common or preferred stock to be paid as earned.

There have been constructed in the United States since the great crash in 1873, and within a period of five years, 11,563 miles of railroad. In the same time the increase of population in the country has equaled fully 7,000,000. The greater part of this increase has been in the extreme Western and in the mining States and Territories. A corresponding demand has been created for the products of manufacturing and commercial industries of the Eastern States. Labor is in fact more productive in the new States and Territories than in the older States. With the general recovery witnessed on every hand, and with an enormous balance of trade with foreign countries in our favor, there is every reason to believe that the country, and particularly its railroads, are entering upon a career of unwonted prosperity. During the recent long continued depression, the means for a lucrative traffic of our railroads for the future have, strange as it may seem, been created. A most encouraging feature is their rapid construction through the Territories surpassingly rich in the precious metals. Every mile constructed adds to the traffic of those already in operation.

It seems probable that within a little more than a year another railroad—the Southern Pacific—will be constructed across the continent, and that the Northern Pacific will soon be able to reach the base of the Rocky Mountains, opening the newly discovered deposits of the precious metals in that quarter, as well as a vast and fertile extent of public lands.

The total miles operated were 78,960 last year, against 74,112 in 1877, and 66,237 in 1873; the capital and funded debt, $4,580,048,793, against $4,568,597,248 in 1877, and $3,784,543,034 in 1873; the gross earnings, $490,103,361, against $472,909,272 in 1877, and $526,419,935 in 1873 the net earnings, $187,515,177, against $170,076,697 in 1877, and $189,570,958 in 1874, (in 1873 the figures were $183,810,562;) the freight earnings, $365,466,071, against $347,704,548 in 1877, and $389,035,508 in 1873; the passenger earnings, $124,637,290, against $125,204,724 in 1877, $140,999,981 in 1874, and $137,384,427 in 1873; the dividends paid, $53,029,366, against $58,556,312 in 1877, $74,294,208 in 1875, and $67,120,709 in 1873.

The gross earnings for the New England States were $41,260,203, against $44,590,465 in 1877. Of these, $23,292,437 were received for transportation of freight, mails, &c., and $17,967,766 for the transportation of passengers. The net earnings were $13,685,927, against $13,735,746 for 1877. The dividends paid amounted to $7,566,655, against $6,977,726 for 1877. The number of miles operated was 5,760, against 6,036 in 1877.

The gross earnings in the Middle States were $155,458,968, against $155,943,121 for 1877. Of these, $119,505,761 were received for transportation of freight, mails, &c., and $35,255,780 for transportation of passengers. The net earnings were $61,559,993, against $61,033,089 for 1877. The dividends paid amounted to $21,148,442, against $24,890,480 for 1877. The number of miles operated was 14,600, against 13,607 in 1877.

The gross earnings in the Southern States were $42,797,284, against $39,812,358 for 1877. The net earnings were $14,379,958, against $12,664,-346 for 1877. The dividends paid amounted to $2,805,799, against $2,740,798 for 1877. The earnings from freights, mails, &c., were $31,576,-270, and from passengers, $11,221,914. The number of miles operated was 12,498, against 11,272 in 1877.

The gross earnings of the railroads of the Western States were $209,852,275, against $193,204,-516 for 1877. The net earnings were $77,958,329, against $66,085,243 for 1877. The dividends paid amounted to $19,341,222, against $14,556,462 for 1877. The earnings from freight, mails, &c., were $160,856,795, and from passengers, $48,995,480. The number of miles operated was 41,605, against 39,136 in 1877.

The gross earnings in the Pacific States were $10,082,491, against $7,766,922 for 1877. Of these, $2,104,501 were received for the transportation of passengers, and $5,436,845 for the transportation of freight. The net earnings were $3 501,625, against $2,655,137 for 1877. The dividends paid were $980,000, against $240,099 for 1877. The number of miles operated was 2,064, against 1,896 in 1877.

On the Pacific Railroads, the earnings aggregated $30,652,130 against $32,170,082 for 1877. Of this sum, $8,435,322 were derived from passengers, and $22,216,808 from transportation of freight, mails, &c. The net earnings were $16,-489,425, against $15,053,582 for 1877, and the dividends $1,837,250, against $7,281,610 for 1877. The number of miles operated was 2,256, against 2,251 in 1877.

The following shows the number of miles of railroad in operation in each State and Territory last year as compared with 1877: Maine, 989; New Hampshire, 1,009 against 964; Vermont, 873 against 872; Massachusetts, 1,872 against 1,863; Rhode Island, 208 against 204; Connecticut, 922; New York, 5,877 against 5,725; New Jersey, 1,668 against 1,661; Pennsylvania, 6,011 against 5,902; Delaware, 289 against 272; Maryland and District of Columbia, 952 against 944; West Virginia, 669 against 638; Virginia, 1,646 against 1,635; Kentucky, 1,528 against 1,509; North Carolina, 1,435 against 1,426; Tennessee, 1,665 against 1,656; South Carolina, 1,419 against 1,406; Georgia, 2,-415 against 2,339; Florida, 487 against 485; Alabama, 1,839 against 1,802; Mississippi, 1,126 against 1,088; Louisiana, 466; Ohio, 5,151 against 4,878; Michigan, 3,593 against 3,477; Indiana, 4,198 against 4,057; Illinois, 7,506 against 7,392; Wisconsin, 2,810 against 2,701; Minnesota, 2,535 against 2,194; Dakota Territory, 320 against 290; Iowa, 4,266 against 4,134; Missouri, 3,286 against 3,198; Indian Country, 275; Arkansas, 783 against 767; Texas, 2,428 against 2,210; Nebraska, 1,-344, against 1,286; Kansas, 2,427 against 2,352; Colorado, 1,165 against 1,045; New Mexico, 8; Wyoming, 472 against 465; Idaho, 80; Utah, 543 against 506; Nevada, 627; California, 2,149 against 2,080; Arizona, 27; Oregon, 283 against 248; Washington, 212 against 197.

In Maine, Connecticut, Louisiana, Indian Country, and Nevada the figures are the same for both years.

☞ Work has been commenced on the new railroad from West Chester to Philadelphia and Phœnixville via the Chester Valley Branch of the Philadelphia and Reading Railroad.

Michigan Central Railroad.

The earnings of the Michigan Central Railroad for the years ending December 31, 1877 and 1878, were as follows:

	1877.	1878.
From passengers	$1,881,581 20	$1,918,608 96
" freight	5,387,739 38	4,646,247 91
" mail	94,220 04	94,220 04
" express	125,013 96	123,730 75
" miscellaneous	72,780 53	89,286 37
	$6,561,435 11	$6,872,094 03
Expenses:		
Road repairs	$656,607 34	$671,354 41
Bridge repairs	37,273 44	96,772 66
Fence repairs	8,596 39	6,632 20
Building repairs	49,319 10	44,261 06
Water works repairs	18,480 42	31,860 96
Dock repairs	8,677 88	3,772 66
Locomotive repairs	294,441 71	308,741 91
Car repairs	333,182 61	339,976 06
Locomotive service	374,674 33	379 720 10
Train service	404.052 73	405,408 40
Station service	519,784 65	515,205 39
Water service	9,356 28	9,940 19
General expenses	170,316 81	173,595 54
Legal expenses	18,943 95	17,641 18
Miscellaneous expenses	9,526 42	23,939 97
Foreign agencies	141,052 74	126,442 65
Telegraphing	67,533 73	67,568 36
Fuel consumed	552,814 26	537,464 38
Rental	30,759 35	28 566 26
Track rental	63,089 40	34,895 10
Oil and waste	71,487 32	65 826 82

Printing & advertising	18,650 86	16,859 40
Loss and damage, fght	22,158 20	11,151 53
Loss and damage, miscellaneous	42,238 85	9,153 14
Stock killed and injured	2,861 62	2,339 23
Injuries to persons	11,533 34	11,703 06
Car mileage	176,593 68	171,828 20
Commissions	49,885 86	47,323 99
Interest	14,053 86	4,639 14
Taxes	302,742 30	294,497 39
	$4,508,482 20	$4,367,238 81
Net earnings	$2,052,952 91	$2,504,855 22
Balance from previous year		3,030,905 92
Interest and dividends from investments		119,664 90
Total		$5,655,426 04
From which deduct—		
Interest, main line		$769,010 00
Interest, leased lines		662,600 00
Rental, leased lines		184,310 00
Dividend 2 per cent, paid June 1, 1878		374,764 08
Dividend 2 per cent, paid Feb. 1, 1879		374,764 08
Chicago and Michigan Lake Shore Railroad old account—worthless.		97,840 19
Balance		3,192,107 69
Total, as above		$5,655,426 04

Compared with the year 1877 the gross earnings for 1878 show an increase of $310,658 92, with a decrease in expenses of $141,243 39, making the increase in net earnings $451,902 31. The ratio of expenses to earnings, including taxes, was: in 1877, 68.71 per cent; and in 1878, 63.55 per cent—a decrease of 5.16 per cent. The President in his report says:

The present management took charge in the latter part of June, 1878, just at the close of the first half of the fiscal year, and the result of the operations, shown separately for each half is submitted, as follows:

	Half yr. to end June.	Half yr. to end December.
Gross earnings	$3,195,061 44	$3,677,032 59
Operating expenses	2,275,752 53	2,091,486 28
Net earnings	$919,308 91	$1,585,546 31
From investments	15,009 75	104,655 15
Net revenue	$934,318 66	$1,690,201 46
Interest and rentals	809,985 00	805,965 00
Balance	$124,333 66	$884,236 46

It should be stated, in connection with the foregoing, that substitutions of steel rails for iron, and renewals of ties were, necessarily, in the ordinary course of such changes, greater in the first half of the year than in the last half. The following shows the actual amounts in each half.

FIRST HALF.

	Quantity.	Value.
Tons steel	2,480.480	$107,889 33
Number of ties	249,935	85,025 36
		$192,914 69

LAST HALF.

	Quantity.	Value.
Tons steel	1,520.015	$66,120 29
Number of ties	84,441	24,569 70
		$90,689 99

TOTAL.

	Quantity.	Value.
Tons of steel	4,000 495	$174,009 62
Number of ties	334,376	109,595 06
		$283,604 68

On the other hand the bridge repairs during the last half were heavier than during the first; having included the replacement in iron of three wooden structures. The other items would not differ much from the quantities fairly chargeable to each half year.

From the balance shown for the whole year there was used—

For construction		$134,162 92
For dividend, 2 per cent, June 1, 1878	$374,764 08	
For dividend, 2 per cent, February 1, 1879	374,764 08	
		749,528 16
Making		$883,691 08
And leaving a surplus of		124,879 04
		$1,008,570 12

By reference to the Income Account, accompanying this, it will be seen that an old balance of $97,840 19 against the Chicago and Michigan Lake Shore Co.—arising out of ordinary business connections and transfers—has been charged off as worthless; that company having undergone a foreclosure and sale. The increase in the Income balance is $161,201 77; being the amount of the above items of Construction and surplus, less the item charged off, as stated.

As the surplus appearing above is just about equal to the balance herein shown for the first half year, it may be said that the last half in effect paid dividends amounting to 4 per cent besides $134,000 that was expended on Construction—subject to the rail and tie adjustment which has been referred to.

With a freight movement, about 22 per cent greater than in 1877, the operating expenses were diminished over $140,000. This reduced the ratio of expenses to earnings about 3½ per cent—and it must be remembered that this ratio would have been much more reduced but for the extremely low rates received.

It has been the effort of the present management to bring expenses down to the lowest point consistent with eventual sound economy; and, in view of the low rates that seem now to have per-

manently obtained, it is by this means largely, if not chiefly that returns on Capital must be hoped to be reached.

The progressive fall in rates during the past fourteen years is shown by the following yearly average (in cents and hundredths) of earnings per ton per mile on freight.

1865	3.06	1870	1.93	1875	1.16
1866	2.60	1871	1.61	1876	1.03
1867	2.49	1872	1.56	1877	.98
1868	2.45	1873	1.56	1878	.85
1869	2.09	1874	1.30		

As low as the rates were in 1877, their maintenance during 1878 would have added nearly $750,000 to the net result—and even then the service would have been performed for less than five ninths the rates received in 1873: less than one half of those received in 1870, and less than one third of those in 1866.

Much careful attention has been given to the alliances and connections of the company, with a view to prevent unnecessary rivalry, and to fortify the position and promote the efficiency of the line in its public service—and no small improvement in that direction has been effected.

As the bonds of the company, and those assumed by it become due, a considerable reduction in the rate of interest can be made. Except on its consolidated mortgage bonds, due in 1902, which are at seven per cent, all the bonds issued or assumed bear eight per cent—a rate much too high for a company of our standing. It will be seen, by the accompanying table of Funded Debt, that a considerable amount of the eight per cents will mature during the next five years.

The Sinking Funds (the report of the Trustees of which appears in its usual place) is substantially providing for the charges which will come upon it.

The property of the company has been fully maintained, and is, in all respects, in a first-class condition. Such condition and freedom from accidents and delays speak for the carefulness and efficiency of the General Manager and those having the line in charge.

The length of road operated is as follows: Main Line, Detroit to Kensington, 270 miles; Kensington to Chicago, used jointly with Illinois Central Railroad, 14 miles; Branches, including Air Line, 519.72 miles—total, 803.72 miles.

The number of miles now laid with steel is: Main line, 270; do. second track, 77.83; Air Line, 103.60; Jackson, Lansing and Saginaw division, 11.50; Grand River Valley division, 14.70; Joliet division, 6.10—total, 483.73 miles. The Main Line and Air Line are entirely steel.

The number of locomotives is 219, of which 167 are coal burners. The car equipment is as follows: 77 first-class and 27 second-class passenger, 9 passenger and baggage, 32 baggage and mail, 3 postal, 129 way, 1 inspection, 1 paymaster, 2 dining, 266 single deck and 176 double deck stock, 3,187 merchandise, 1,291 platform, 1 pile driver, and 3 derrick cars.

Miles run by locomotives: passenger, 1,647,687; freight, 3,286,138; miscellaneous, 218,673; switching, 1,660,032—total, 6,812,530, an increase compared with the previous year of 434,163. The expense of maintenance, $1,186,603 30, a decrease of $8,981 88. Cost per mile, 17.41 cents, a decrease of 1.33 cents.

Tons of freight hauled: local, 2,033,994; through, 1,530,737—total, 3,564,731, an increase of 627,161. Tons moved one mile, 548,053,707, an increase of 101,344,768. Earnings per ton per mile, 0.848 cent; in 1877, 0.982 cent.

Number of passengers: local, 1,300,789; through, 133,148—total, 1,433,937, an increase of 33,090. Total passengers moved one mile, 79,684,072, a decrease of 121,882. Earnings per passenger per mile, 2.41 cents; in 1877, 2.36 cents.

While the freight and passenger traffic of the road have increased—the former 21.35 per cent, and the latter 2.36 per cent—the cost of operating shows a reduction, excluding taxes, of $42,998 48, the percentage of operating expenses to earnings showing a decrease of 3.52 per cent.

President.—WM. H. VANDERBILT.

Directors.—Wm. H. Vanderbilt, Augustus Schell, Cornelius Vanderbilt, Samuel F. Barger, Wm. K. Vanderbilt, Edwin D. Worcester, New York; Anson Stager, Chicago; William L. Scott, Erie, Pa.; Ashley Pond, Detroit.

General Manager.—HENRY B. LEDYARD.

Treasurer.—CORNELIUS VANDERBILT.

Secretary.—EDWIN D. WORCESTER.

The Panama Canal.

The greatest engineering enterprise of the century is now being put into practical shape. Commerce contantly demands the lessening of time and space, because the ever increasing competition of civilization diminishes profits. A voyage twice the length of the continent is the saving which the Panama Canal will make to the merchant and ship owner.

Many of us familiar with the difficulties to be overcome in building the Pacific Railroad never believed the road would be completed. The advantages were plain enough, but the natural obstacles seemed too great. So it has been with the construction of a ship canal across the Isthmus of Darien. The advantages are almost beyond calculation, while the engineering difficulties have also appeared too gigantic to overcome. M. de Lesseps, the famous engineer of the Suez Canal, has now undertaken the Panama Canal, declaring the project to be feasible and profitable. The stock of the COMPAGNIE UNIVERSELLE DU CANAL INTEROCEANIQUE is now offered to American capitalists at the office of the CREDIT LYONNAIS, 120 Broadway and 78 Cedar Street.

There is very little doubt of the success of this enterprise so far as American interests go. We shall at no distant day, if not from the start, own and control the majority of the stock in this canal, as we shall commercially derive the greatest benefit from it. Then let it be pushed forward vigorously to an early completion.

Fairbanks' Scales.

It may almost be said that wherever in the world there is something to be weighed, Fairbanks' Scales are used. They have arrived at a standard of excellence which it would almost seem cannot be improved, and have followed their constantly extending reputation into every civilized country.

From the New York, Lake Erie and Western Railroad Company, through Messrs. J. T. Moulton & Son, the great elevator builders of the West, they have just received an order for the following large scales, to constitute the entire weighing apparatus for the new elevator to be built in this city: Three 30 ton patent iron frame railroad track scales; nine 500 bushel hopper scales, and one 350 bushel hopper scale. The new elevator being built in Chicago, one of the largest, if not *the* largest, in the world, have contracted for a full outfit of Fairbanks' Scales; also the new elevator being built in Detroit, Mich., by Mr. Wm. H. Vanderbilt. In fact, in the history of the representative house in this city, business has never been better or prospects brighter.—*Buffalo Courier, July* 12.

☞ The contract for building the extension of the Warwick Valley Railroad from the Village of Warwick, Orange County, N. Y., to McAfee, N. J., a distance of 11 miles, to form a connection there with the Sussex Railroad, has been let for $85,000 to Richard Smith, of Morristowe, N. J. This extension will make a new and short connection for the New York, Lake Erie and Western Railroad with the coal fields of Pennsylvania.

☞ The Western Reserve Railroad Company has been incorporated by E. P. Hatfield and others. The termini are: Congress township, Wayne county, Ohio, and Harrison township, Paulding county, at Indiana State line, passing through the counties of Wayne, Medina, Ashland, Huron, Seneca, Hancock, Putnam and Paulding. Capital $300,000.

☞ From and after midnight, July 31, 1879, the Kentucky and Tennessee Divisions of the St. Louis and Southeastern Railroad will be operated by the Louisville and Nashville Railroad Company.

☞ The new board of directors of the New York and Long Island Bridge Company have organized by the election of Dr. Thomas Rainey as President, R. M. C. Graham as Secretary and H. D. Schmidt as Treasurer.

☞ The capital of the Cleveland, Tuscarawas Valley and Wheeling Railroad Company has been increased from $3,000,000 to $4,180,000.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending July 19, as reported by the several carrying companies, amounted to 585,290 tons, against 499,545 tons in the corresponding week last year, an increase of 85,745 tons. The total amount of anthracite mined for the year is 13,305,328 tons, against 7,821,585 for the same period last year, an increase of 5,483,743 tons. The quantity of bituminous coal sent to market for the week amounted to 80,164 tons, against 78,124 tons in corresponding week last year, an increase of 2,040 tons. The total amount of bituminous mined for the year is 1,834,706 tons, against 1,640,023 tons for corresponding period last year, an increase of 194,683 tons. The total tonnage of all kinds of coal for the week is 665,454 tons, against 577,669 tons in corresponding week last year, an increase of 87,785 tons, and the total tonnage for the coal year is 15,140,034 tons, against 9,461,608 tons to same date last year, an increase of 9,461,608 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the second week of July was 115,204 tons, of which 84,544 tons were coal, and 30,660 tons coke. The total tonnage for the year thus far has been 3,014,728 tons, of which 2,304,088 tons were coal and 710,640 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ending July 19th were 44,131 tons, and for the year to that date 825,457 tons, an increase of 63,593 tons as compared with the corresponding period of 1878. The shipments to the Baltimore and Ohio Railroad for the week were 21,588 tons, for the year 489,815 tons, an increase of 49,360 tons, as compared with 1878. The shipments by the Chesapeake and Ohio Canal for the week were 18,848 tons, and for the season 247,055 tons, a decrease of 18,858 tons as compared with last year. The shipments to the Pennsylvania Railroad were, for the week, 3,696 tons, for the year 88,587 tons, an increase of 33,091 tons as compared with 1878. The heaviest coal shipper last week was the Consolidation Company, sending out 12,419 tons; the New Central came next, with 9,498 tons. The heaviest shipper of the year has been the Consolidation Company, 236,698 tons; the New Central second, 162,238 tons; the Borden third, 66,791 tons; the Hampshire and Baltimore fourth, 57,736 tons, and the American fifth, 55,980 tons, none of the others sending out over 50,000 tons. The Reading Railroad Company reports a coal shipment for the week ending on Saturday evening last of 159,000 tons, of which 59,900 tons were sent to Port Richmond, and 57,000 tons were shipped thence. The receipts of coal at Perth Amboy during the week ending July 19 were 39,865 tons, and the shipments 32,532 tons, leaving on hand 121,329 tons.—*Phila. Ledger, July 28.*

Foreign Trade of the United States.

The Bureau of Statistics has just furnished the figures of the export and import trade of the United States for the fiscal year which ended June 30, 1879, as compared with the returns of the preceding fiscal year. They are as follows:

Value of exports of domestic merchandise for the year ending June 30, 1879	$698,334,951
Do. for year 1878	680,709,268
Increase in year 1879	$17,625,683
Value of exports of foreign merchandise during fiscal year 1879	$12,093,792
Do. for fiscal year 1878	14,156,498
Decrease	$2,062,706
Value of imports of merchandise during fiscal year 1879	$445,792,141
Do. during fiscal year 1878	437,051,532
Increase	$8,740,609

From the above it appears that the total value of the exports of merchandise ($710,428,743) during the fiscal year which ended June 30, 1879, exceeded the imports of the same year by the sum of $264,636,602. For the fiscal year 1878, the excess of exports over imports was $257,814,234. These figures show an increase of trade balance in our favor of $6,822,368 during the last fiscal year.

The following figures show the value of the exports and imports of merchandise for each fiscal year ending June 30, from 1865 to 1879, both inclusive:

	Exports.	Imports.	Difference.
1865...	$166,079,303	$238,745,550	$72,416,277
1866...	215,559,522	434,512,066	85,952,544
1867...	394,506,411	395,461,096	101,254,955
1868...	351,952,599	357,436,440	75,453,541
1869...	116,117,697	417,506,379	131,388,652
1870...	394,771,768	435,955,408	43,186,640
1871...	462,820,178	520,223,684	77,403,506
1872...	444,177,586	626,595,077	182,417,491
1873...	522,479,922	602,136,210	119,656,288
1874...	586,253,040	567,406,342	*15,576 695
1875...	513,442,711	533,005,436	19,562,725
1876...	540,384,671	460,741,190	*79,643,451
1877...	602,475,220	451,223,126	*151,152,094
1878...	694,865,766	437,051,532	*257,814,234
1879...	710,428,743	445,792,141	*264,636,602

* Excess of exports over imports.

The exports above given include the values of foreign merchandise exported, which, with the exception of 1865, has averaged about $14,000,000 per annum.

The imports and exports of coin and bullion during the fiscal year 1879 were as follows:

Exports of coin and bullion	$24,996,641
Imports of coin and bullion	20,293,000
Excess of exports	$4,703,641
Excess during fiscal year 1878	3,918,811

The following figures will show the movement of bullion and coin since 1865:

Year ended June 30.	Exports.	Imports.	Excess of Exports over Imports.
1865...	$67,643,226	$9,810,672	$57,833,154
1866...	86,044,071	10,700,092	75,343,979
1867...	60,568,372	22,070 475	33,797,897
1868...	93,784,102	14,185,268	79,595,724
1869...	57,138,380	19,807,376	37,330,504
1870...	58,155,666	26,419,179	31,736,487
1871...	98,441,988	21,270,024	71,271,964
1872...	79,577,534	13,743,089	66,133,845
1873...	84,608,574	21,480,937	63,127,637
1874...	66,630,405	28,454,906	38,175,499
1875...	92,132,142	20,900,717	71,231,425
1876...	56,506,302	15,926,681	40,569,621
1877...	56,162,227	40,774,414	15,387 828
1878...	33,740,125	29,821,314	3,918,811
1879...	41,996,641	20,293,000	4,703,641

From the above figures it appears that the net trade balance (merchandise and coin) for the fiscal year which ended last June was $269,340,234, against $261,733,045 the year previous. The returns, however, for June, 1879, while they show that our exports of merchandise were $1,600,000 below those of June, 1878, indicate a decided increase of imports (from $35,506,288 in 1878 to $38,909,645 in 1879)—leaving a trade balance in our favor last June of $6,152,728, against $11,228,610 in June, 1878.

☞ The Salina and Southwestern branch of the Kansas Pacific road is now completed and open for business from Salina to Lindsburg, a distance of 21.1 miles from Salina and 206.1 miles from Kansas City.

American Railroad Journal.

Saturday, August 2, 1879.

Financial and Commercial Affairs.

Cable advices have been of continued ease in Money, through the large accumulations of idle capital at the principal business centres of Western Europe, notably at London, where more or less of irregularity has been reported in financial values, on a moderate show of animation. Commercial and industrial interests are represented as exhibiting little, if any, improvement. In the home markets, considering the season of the year, the dealings in the financial and commercial lines have been quite extensive, but prices have been unsettled. Reports from the Southwest of the spreading of the Yellow Fever have been depressing, and have been felt most keenly by the Dry Goods, Provisions, Boots and Shoes, Hardware and kindred interests. Money in the local market has been ruling in favor of responsible borrowers, on increasing supplies at this point, serving to quicken speculation, and to stimulate business generally. The demand from all sources has been to a fair aggregate, but not at all urgent. Call loans closed here at 1½@4, generally at 2@3 per cent, on the pledge of satisfactory Stock or mixed collaterals, and best discounts at 3@5 per cent per annum. The U. S. Sub-Treasury now holds a coin reserve of $127,376,734, (a gain for the week of $135,504), and a currency balance of $31,975,543 (a reduction for the week of $3,271,098.) The City Bank exhibit of last week indicated a falling off in the loan and discount average of $2,137,200, and an increase in the item of circulation of $17,900. The average of deposits was enlarged $3,228,700. The legal tender reserve was augmented $3,779,200, and

the specie average reduced $84,100. The City bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $13,369,950, or an increase for the week of $2,887,925. The City bank exchanges in currency reached $494,794,747, or a daily average of $82,299,125.

Foreign Exchange has further receded materially in price, on quite liberal offerings, and a comparatively limited inquiry. Bankers' sixty day bills on London closed at $4 82¾@$4 83½; sight bills on London at $4 84½@$485½ to the £ sterling. Cable transfers, $4 85@$4 86. The specie outflow last week was only $107,100—making the total exports of specie hence since January 1, 1879, $11,598,698 against $9,208,052 the same time in the preceding year. The imports of specie at this port last week were to the amount of $77,448, and since January 1, 1879, have been $6,075,512 against $14,015,211 same time in the preceding year. The Customs drain for gold in the local market reached $2,705,000 or an average of about $450,833 per day. The week's imports of Dry Goods and general merchandise were to the specie value of $6,168,413 (of which $1,814,707 of Dry Goods), as against $4,980,659 the corresponding week of 1878. The week's exports of Domestic Produce and Miscellaneous Goods from this port were to the aggregate value of $6,512,830 against $7,460,868 same week 1878, making the total exports of produce since January 1 this year $183,013,759, against $197,054,683 same period in 1878.

Government securities have been in brisk request, throughout the week, chiefly on investment account, and have been, as a rule, quite firm in price. Home buyers have taken liberal amounts of the new four per cent refunding Loan which closed strong. Up to Wednesday the refunding certificates received at the Treasury for conversion into 4 per cent bonds amounted to $33,675,950. At the close on Wednesday the current quotations were as follows:

United States currency 6s, 121½@125; do. 6s, 1880, registered, 104¼@104½; do. coupon, 104¼@104½; 6s, 1881, registered, 104⅞@105; do. coupon, 104¾@105; 5 per cents, 1881, registered, 102⅞@103; do. coupon 104@104⅛; 4½ per cents, 1891, registered, 106⅛@106⅜; do. coupon, 106⅛@106¼; 4 per cents, 1907, reg., 102@102⅛; do. coupon, 102@102⅛.

The amount of United States bonds deposited with the U. S. Treasurer at Washington for circulation during the week was $1,936,550. And of United States bonds held for circulation withdrawn during the week $3,868,450. The Treasury Department now holds $351,257,800 in United States bonds to secure the outstanding national bank circulation. The National bank circulation is now $328,434,658 of currency notes and $1,467,500 of national gold bank notes National Bank notes received at the Treasury Department last week for redemption were to the amount of $2,292,000.

The amount of national bank notes redeemed at the Treasury during the last fiscal year on account of failure, going into liquidation, and reducing circulation was $7,366,457.

Dealings in State Loans have been to a more liberal aggregate, chiefly on investment account, and prices have been quoted stronger and quite buoyant. Railway Mortgages have been in much better request, and have been advanced sharply in the instance of the favorite issues of the actual interest bearing obligations, which have been offered with decidedly less freedom and urgency. Railway and Miscellaneous share property which opened rather tamely and irregular, has shown toward the close increased animation with higher range of prices, leaving off, as a rule, with an upward tendency. The speculative buyer has been decidedly more confident, favored by the abundance and ease in Money, the encouraging harvest reports, and, all the circumstances considered, the more than usually, substantial and gratifying promise the trade position for the Fall season, now soon to open. The business as officially reported, which on Wednesday of last week was about 113,000 shares, fell on Friday to 93,000 shares, rallying on Saturday to 102,000 shares and on Monday of the current week running up to about 200,000 shares, followed on Tuesday by an aggregate of 193,000 shares. Of the prominent features of the week were the shares of the Wabash, the Cleveland, Columbus, Cincinnati and Indianapolis, and the Indianapolis and St. Louis Roads, which were brought into favor by the announcement of the pooling of all through freight, passenger, express and mail traffic for a period of five years, which was interpreted as signifying a practical consolidation of the business interests of the specified roads, and giving promise of early arrangements for the necessary eastern connections and outlets at the seaboard. Though the general market closed up somewhat irregularly, the undertone was deemed strong.

An active business has been reported in Produce and Merchandise but at generally weaker prices. Breadstuffs have been more freely sought after, particularly Wheat on export, and on speculative account, but at reduced figures. Provisions have been in less demand at irregular prices, closing heavily.

A fair movement has been noted in Cotton but at easier prices. Early deliveries left off weak. Low Middlings closed for prompt delivery at 11 5-16@11 7-16; Middlings at 11⅝@11¾. Options left off for July basis of Middling at 10.60@10.61; August at 10.60@10.61; September at 11.52; October at 10.85@10.86; November at 10 58@10.60; December at 10.55; January at 10.59@10.60; February, 10.69@10.70; March, 10.81@10.84.

A decidedly livlier market has been reported in the line of Ocean freights chiefly for the Grain trade at advanced rates closing, however, tamely and less firmly. Through freights active, but irregular.

At the auction sale of Scranton coal, on Wednesday, 50,000 tons were sold at an advance, the range having been from 2 30@2.74½, against 2.17½@2.55¼ at the June sale. Average of last sale 2.57½; preceding sale, 2.38½. It was announced at the sale that the 50,000 tons offered would be all that the company could deliver in August.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The Delaware Shore Railroad was disposed of at master's sale at Woodberry, N. J., on the 26th ult. Mr. Thomas L. Ogden, the receiver, and, it is understood, the heaviest creditor of the road, was the purchaser for the sum of $35,500. When the Court of Chancery ordered the sale the limit at which it was to be sold was fixed at $110,000. The highest bid then reached was $101,000, and the sale was not effected. Subsequently the Court reduced the limit to $35,000.

Houston and Texas Central Railway.

The following is a comparative statement of earnings and expenses of the Houston and Texas Central Railway for the months of June, 1878, and June, 1879:

	1878.	1879.
Earnings	$128,569 71	$163,798 20
Expenses (including taxes)	139,120 50	140,832 06
Net	*$10,550 79	$22,966 14
Increase in gross earnings (27.40 p. c.)		$35,228 49
Increase in expenses (1.23 p. c.)		1,711 56
Gain in net earnings		$33,516 93

* Deficit.

☞ Articles of incorporation of the Danville and Southwestern Railroad Company were filed in the office of the Secretary of State of Illinois at Springfield on the 25th ult. The capital is $700,000. The company is organized to operate the Paris and Danville Railroad, recently sold under foreclosure. The corporators are H. S. Greene and Charles Ridgely, of Springfield; Roswell Miller, of Cairo; James A. Eades, of Paris, and J. B. Mann, of Danville. The directors are J. Pierrepont Morgan, Wm. Bayard Cutting, Solon Humphreys, H. S. Greene, Roswell Miller, Charles Ridgely and James A. Eades.

☞ A certificate of incorporation has been filed in the County Clerk's office of the "Steam Heating and Power Company of New York," the objects being, as stated, similar to those of the so-called Spinola heating scheme. Its capital stock is $5,000,000, and the Trustees are Hawley D. Clapp, Wallace C. Andrews, Ashbel W. Humphreys, and James W. Hawes.

☞ A certificate of incorporation of the "Steam Railway Motor Company" has been filed in the New York County Clerk's office. Its purpose is to manufacture railway rolling stock. Its capital stock is $250,000, and its Trustees are David Groesbeck, Pomeroy Dickinson, Robert A. Lancaster, Grant B. Schley, Henry E. Howland, Eugene H. Angerman and Rufus H. Beardsly.

☞ E. D. Worcester, Secretary of the New York Central and Hudson River, and Michigan Central Railroads, and Treasurer of the Lake Shore and Michigan Southern Railway, has been elected President of the Rochester and State Line Railroad.

☞ The work on the extension of the Pittsburgh, Virginia and Charleston Railroad from Monongahela City to Brownsville, is progressing rapidly. It is expected that the road will be finished and ready for operation by January next.

☞ The Messilla Independent of June 28th says "a surveying party of the Atchison, Topeka and Santa Fe Railway are now in the neighborhood of Fort Cummings, surveying out the line of the said road."

☞ Donald McNaughton has been elected Secretary and Treasurer of the Rochester and State Line Railroad Company.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

Philadelphia and Reading Railroad.

Comparative statement of gross receipts, tonnage and passengers, of the Philadelphia and Reading Railroad Company, for the month of June:

	1879.	
Gross receipts:	Month.	Year to date.
Railroad traffic.....	$1,179,140 34	$6,738,322 28
Canal traffic.....	93,076 98	358,750 02
Steam colliers.....	50,814 16	394,923 86
Richmond coal barges	19,982 77	84,328 16
Total Railroad Co..	$1,343,014 25	$7,576,324 32
Reading Coal & Iron Company.....	1,047,683 19	5,232,383 80
Total of all.....	$2,390,697 44	$12,808,708 12
Tonnage and passengers:		
Tons of coal on railroad.	745,711 04	4,234,715 06
Tons of merchandise...	437,897 19	2,290,159 09
Passengers carried....	761,063	3,905,019
Coal transported by steam colliers.....	48,818 00	340,292 00
Tons of coal mined:		
By Coal and Iron Co...	398,195 18	2,195,493 18
By tenants.....	108,442 09	664,656 16
Total mined from lands owned and controlled by Co. & from leasehold estates.....	506,638 07	2,860,150 14

	1878.	
Gross receipts:	Month.	Year to date.
Railroad traffic.....	$1,267,874 35	$6,231,569 25
Canal traffic.....	179,741 92	381,133 00
Steam colliers.....	42,328 49	318,008 97
Richmond coal barges	8,713 96	43,719 56
Total Railroad Co..	$1,498,658 72	$6,974,430 78
Reading Coal and Iron Co.....	920,506 36	3,882,198 77
Total of all....	$2,419,165 08	$10,856,629 55
Tonnage and passengers:		
Tons of coal on railroad.	754,653 15	2,958,661 03
Tons of merchandise...	253,552 18	1,825,625 03
Passengers carried....	589,975	3,568,306
Coal transported by steam colliers.....	41,416 00	319,023 00
Tons of coal mined:		
By Coal and Iron Co..	333,193 06	1 377,003 08
By tenants.....	147,506 07	546,038 19
Total mined from lands owned and controlled by Co. and from leasehold estates.....	480,699 13	1,923,042 07

The gross receipts of the Railroad Company for the year to June 30, including the receipts of the Philadelphia and Reading Coal and Iron Company, was $12,808,708, against $10,856,629 to corresponding time last year, an increase of $1,952,079. The coal tonnage of the year to the end of June was 4,234,715, against 2,958,661 for same time last year, an increase of 1,276,054; the tonnage of merchandise for the same time was 2,290,159, against 1,825,625 in same time in 1878, an increase of 464,534 tons. The number of passengers carried for the year to June 30 was 3,905,019, against 3,568,306 in corresponding time last year. The increase all through the exhibit is quite encouraging.

☞ A charter is being prepared for the incorporation of the Annapolis and Baltimore Short Line Railroad Company. The incorporators are: Luther Giddings, Jas. I. Waddell, Geo. S. Marsh, John Thomson Mason, George Heath and Thos. E. Martin, of Anne Arundel county, Md., John Saterlee, of New York. The capital stock is $400,000. The road will begin at Annapolis, and run by way of Iglebart's Station, a distance of five miles from the city, and from there take a direct course to Baltimore, making in all a distance of not more than twenty miles between the two places.

The Red Bird Gold and Silver Mining Co.

The last and most notable addition to the list of mining companies incorporated under the "non-assessable" laws of this State is the Red Bird Gold and Silver Mining Company, with a million dollars stock capital, a property located in the heart of the richest mining district in Nevada, and a Directory which includes the names of some of our best known citizens in the circles of commerce and finance.

The Red Bird mines are situated on the celebrated Ruby Hill lode which passes through the Eureka mining district of Eureka county, Nevada. Upon this belt or lode, and in close neighborhood to the Red Bird, are found several mines of world wide celebrity. Among these are the Eureka Consolidated, the Richmond, Bald Eagle, Dunderberg, Atlas and Jackson, whose aggregate annual yield amounts to many millions of dollars, and whose resources in width of vein and richness of ore increase as their shafts are deepened. The extent of these resources may be imagined when it is stated that although the area of the Eureka District is only four miles square, it is now contributing at the rate of fourteen millions annually to the metallic wealth of the country. The remarkable width as well as the high grade character of the ore veins passing through the Red Bird property, and the ease with which the ore is smelted, constitute the valuable peculiarities which render the district so celebrated. Cross sections made in some of these veins prove them to be over 200 feet in width. As a five foot vein of similar richness would be considered a very handsome property it would be difficult to exaggerate the value of a mine intercepting the extraordinarily extensive deposits on which the Red Bird is located.

We find in the company's preliminary prospectus a highly favorable report on the Red Bird by Mr. William P. Blake, of New Haven, Conn., one of the most trustworthy mining experts on this side of the continent.

The Bald Eagle works adjoining the company's mine are practically a development of the Red Bird. Mr. Blake, in his examination, found that a drift of the former at a depth of 150 feet followed a mass of ore up to within fifty feet of the Red Bird's line. The Bald Eagle is regarded as one of the best mines in the district and is paying its owners very handsomely.

The Red Bird Company have been wise in securing the services of Mr. R. P. McDaniel, of Eureka, as Mining Superintendent. Mr. McDaniel has a very high opinion of the property, and as he is better acquainted with the district than any man there, having located and superintended some of the best mines on the Ruby Lode and elsewhere in the vicinity, his opinion is especially valuable.

The officers of the company are Mr. William H. Foster, of this city, President; Mr. George H. Clowes, of Waterbury, Conn., Vice President; Mr. Henry Bradstreet, Secretary; and Mr. Frank B. Whitfield, of No. 9 New street Treasurer. The Board consists in addition to these gentlemen, of Mr. N. Dana Whipple, Mr. Joseph C. Spencer and Mr. Alonzo P. Woodruff, all of this city. Under so highly respectable and conservative a Directory the interests of the stockholders are thoroughly guaranteed, and the company appears in every respect to offer a most desirable medium either for permanent investment, or for the purpose of realizing at the higher prices which will speedily follow the active developments the company are about to make.

Prudent Stock Speculations.

The Stock Exchange never presented such an admirable condition for profitable and rapid stock operations. There never before have been so many fortunes made by quick fluctuations and skillful manipulations. Careful and reasonable people only operate through the combination system of Messrs. Lawrence & Co., which enables those with large or small means to invest and realize handsome profits, which are divided pro rata among the shareholders every thirty days. New combinations are constantly forming. From $25 to $10,000 can be safely invested with splendid opportunities for quick profits. An Illinois grain dealer made $13,220 41 in two investments. A Michigan farmer invested $50, which yielded $433 14. He made by three re-investments over $3,000. A Wisconsin country merchant made $4,249 16 in four combinations; and others have done equally as well. New explanatory circular, with "unerring rules for success," mailed by Messrs. Lawrence & Co., Bankers, 57 Exchange Place, New York City.

☞ Articles of association between the Muncie and State Line Railroad company, of Indiana, and the Lafayette, Bloomington and Mississippi Railroad Company, of Illinois, have been filed. The name of the consolidated company is the Lafayette, Bloomington and Muncie railroad, and its capital stock $1,000,000. The board of Directors consists of C. R. Cummings, J. N. Cheney, D. P. Eells, Geo. J. Seney, John P. Martin, E. N. R. Lyman, O. W. Pierce, Charles Bogardus and Geo. J. Seabury.

☞ In reference to the use of anthracite coal abroad, Mr. Crosby, United States Consul at Florence, Italy, in a dispatch to the Department of State, reports that a successful trial of anthracite coal has been made in Italian locomotives. One company has ordered 20,000 tons from the Philadelphia and Reading Company. The United States Consul at Naples has just reported a favorable experiment in the use of American coal in smelting furnaces in that city.

☞ The New Brunswick and Canada Extension Railway Company have 250 men at work on their line from Vanceboro to McAdam Junction. The distance is 64 miles, and the work is sub-let in sections of about a mile each. It is a level road and will be finished in September. It will be run in connection with the European and North American Railway. The cost will be between $35,000 and $40,000.

☞ The locomotive from this country exhibited at the Paris Exposition was recently sent to Milan for trial, having been refused at Florence. Great opposition is made to it by Belgian and English makers of locomotives. There is now a prospect that it may have a trial. A son of Louis Kossuth is the Chief Engineer of one of the roads, and is in favor of the American locomotive.

☞ The contract for the construction of the Quebec, Montreal, Ottawa and Occidental Railroad from Hochelaga to the Quebec Gate Barracks, Montreal, has been awarded to J. D. McDonald, of Thorold, Ont.

The Chesapeake and Ohio Railway and its Connections.

Referring to the statements of the Presidents of the Chesapeake and Ohio Railway and the Elizabethtown, Lexington and Big Sandy Railroad, published in our last issue, Messrs. Fisk & Hatch in their circular dated July 12th, say:

As a holder of the securities of the Chesapeake and Ohio Railway Company you are personally interested in the success of the effort now being made to place the road in the position which it was originally designed to occupy, and which will give to the securities you hold the permanent value which they ought to have.

The facts and considerations which should influence your action in a matter of so much importance to you are so fully set forth in the accompanying papers that it is unnecessary that we should go into further detail. No one can read them attentively, and at the same time trace on the map the relation which the Elizabethtown, Lexington and Big Sandy Railroad bears to the Chesapeake and Ohio, without realizing at once the influence which the completion of this connection will have upon the future of the Chesapeake and Ohio Railway. The most natural thoroughfare from a large portion of the great west to the sea will be over its line to the waters of the lower Chesapeake Bay. With its connection perfected, it will become one of the great east and west trunk lines between the seaboard and the producing regions of the interior, possessing advantages more favorable in many respects than any of the others.

The New York Central and the Pennsylvania railroads each pay interest and dividends on nearly $130,000,000; the New York, Lake Erie and Western bids fair in time to do the same on a still larger amount; the Baltimore and Ohio is crowded with an enormous business, while its $60,000,000 of stocks and bonds are considered as among the best investments in the country. The Chesapeake and Ohio, with its splendid location in a climate neither too hot in summer nor too cold in winter for the safe and uninterrupted transportation of merchandise and products of every sort, has to earn interest on less than $30,000,000 of bonds to make it a success, so far as its bondholders are concerned.

It is well known to you that since the default of the old company in 1873, we have, in connection with the officers and directors, devoted much of our time and given our best energies to the efforts that became necessary to save the road from passing into the hands of a few capitalists, to the sacrifice of the interests of the bondholders and creditors at large, or from being wasted in endless and costly litigation, and to bring about the equitable reorganization in which all interests have been recognized, and which was successfully consummated a year ago.

In the case of many if not most of the railroad reorganizations which have been carried out or attempted during the last six years, the bondholders have been compelled to advance the money for the protection of their interests, or forfeit their right to participation. The reorganization of the Chesapeake and Ohio has been accomplished without any compulsory investment in new securities, without any assessment upon the bondholders, and without cost or expense to them in any form. As a result of the reorganization you have already seen your Chesapeake and Ohio Securities advance in market value to more than double the price at which they were at one time quoted, and the opportunity is now presented to you to further enhance their value to a still greater extent by an investment, small in comparison to the benefit you will reap from it, in securities which we are confident will of themselves prove safe and remunerative.

The plans for connecting the Chesapeake and Ohio Railway with the railroad systems of the west, and for perfecting it as a great central through line, the importance of which to the future of the road you have well understood and appreciated from the beginning, have at last been fully organized, and all that is now requisite to ensure their early completion is a prompt subscription for $1,200,000 of the First Mortgage Bonds of the Elizabethtown, Lexington and Big Sandy Railroad Company.

We doubt if those interested in so large and valuable a property, lying comparatively dormant for want of improvements so vital to its development, and yet requiring so little for their attainment, have ever before had presented to them the opportunity to realize so large returns from the investment of so small an amount.

The parties who have contracted to complete the Elizabethtown, Lexington and Big Sandy Railroad, and to take payment in the securities of the company, provided $1,200,000 of the First Mortgage Bonds are subscribed for on the terms hereinafter set forth, and who have agreed to expend $500,000 upon its construction, before any of the bonds shall be issued, are well known to us, and have ample means for accomplishing what they undertake. Their contract is a sufficient guarantee that if the $1,200,000 bonds now offered for subscription are promptly taken, the work will go rapidly forward to completion.

TERMS OF SUBSCRIPTION.

The price of the bonds is fixed at 97½. A payment of 17½ per cent will be required at the time of subscription, for which the subscribers will receive a proper certificate. The balance of the amount will be payable in installments as called for, during the progress of the work, not exceeding 10 per cent monthly. Interest will be allowed on all payments, from their date, at the rate of six per cent per annum, When the final installment is called for and paid, the bonds will be issued and the interest adjusted to that date.

The bonds are of the denomination of $1,000 each, payable to bearer, or registered in the name of the owner, as desired; dated March 1st, 1872, and payable thirty years after date, with interest at the rate of 6 per cent per annum, payable March 1st and September 1st, in the City of New York, in Gold Coin, and are secured by a first mortgage on the entire property of the company, including the 33½ miles of finished road, already in operation.

The trustees of the mortgage are P. C. Calhoun (President of the Fourth National Bank,) and George I. Seney (President of the Metropolitan National Bank).

Subscriptions will be received, and full information given at our office, No. 5 Nassau Street.

The total annual interest charge on the $2,500,000 bonds to be issued for the construction of the road will be but $150,000, and upon the entire amount of bonds authorized to be issued ($3,500,000) it will be but $210,000; and that an immediate traffic sufficient to enable the road to earn this amount awaits its completion, in the business already existing upon the lines between which it will form the connecting link, no doubt is entertained.

The sooner the proposed subscription can be made up, the sooner the Elizabethtown, Lexington and Big Sandy Railroad will be built, and its influence upon the value of your property realized; and an early response on the part of each one to whom this circular is addressed will contribute to that end.

In the effort now being made to secure a result which will render effective the exertions of the past and enable you to reap the fruits of what has already been accomplished, we feel that we can rely upon your ready co-operation.

☞ On application of the Denver and Rio Grande Railway Company, Judge Hallett of the United States Court has appointed L. C. Ellsworth of Denver receiver of the Denver and Rio Grande Railway, pending the litigation with the Atchison, Topeka and Santa Fe Company in regard to their right to operate the road. W. W. Borst was reappointed Superintendent of the road by Col. Ellsworth.

☞ THE APPLICATION OF THE NORTHERN PACIFIC RAILROAD COMPANY to have its stocks placed upon the Regular List was favorably passed upon Tuesday by the Governing Committee of the New York Stock Exchange, and the following statement was accepted:

OFFICIAL STATEMENT
OF THE
NORTHERN PACIFIC RAILROAD COMPANY.
SHOWING ITS CONDITION JULY 1, 1879.

Incorporated by act of Congress to construct, own, and operate a railroad and telegraph line from Lake Superior to Puget Sound on the Pacific Coast.

	Miles.
The company has completed and in operation of its chartered line	560
Also owns, by deed, the undivided half of, and operates, the railroad from the junction with the St. Paul and Duluth Railroad to Duluth, Minn	24
Also owns the controlling interest in, and operates under a 99 years' lease, a completed railroad from Brainerd, on the main line, to Sauk Rapids, Minn	60½
Also owns the perpetual right to the joint use of, and operates, a completed railroad from Sauk Rapids to the City of St. Paul	75½

LENGTH OF COMPLETED RAILROAD exclusive of sidings, operated by this company 720

EQUIPMENT.—55 locomotives, 23 passenger cars, 11 baggage, mail, and express cars, 525 freight box cars, 639 platform cars, 41 stock cars, 100 coal cars, &c.

Shop tools and machinery, value, $125,000.

LANDS GRANTED BY CONGRESS to aid in the construction of the road—20 sections per mile in the States, and 40 sections per mile in the Territories through which the line runs.

LANDS ALREADY EARNED by construction of road:

	Acres.
In the State of Minnesota	2,918,100
In the Territory of Dakota	4,972,800
In the Territory of Washington and State of Oregon	2,688,000
Total lands acquired by the Company, and as to which no question can arise	10,579,200
Of which there have been sold by the Company	2 312,209

FLOATING DEBT, (balances,) $385,382 46. The greater part of this is for steel rails lately purchased for the main line. There is also an indebtedness of $300,000, being the balance unpaid on the purchase of the undivided half of the above mentioned 24 miles of the St. Paul and Duluth Railroad, due on (or at any time before, at the option of this Company) January 1, 1897, and which, with the interest thereon, is payable in the Preferred Stock of the St. Paul and Duluth Railroad Company.

NO OTHER INDEBTEDNESS WHATSOEVER, except as incurred for the construction of the Missouri Division hereinafter mentioned.

THE COMPLETED ROAD AND THE EARNED LANDS ARE WHOLLY FREE FROM INCUMBRANCE.

THE WORK OF CONSTRUCTION is rapidly progressing on the Missouri Division, which extends from the Missouri to the Yellowstone River, about 205 miles. The means for this purpose are provided by the issue of Bonds and Preferred Stock. The Bonds cannot exceed $12,000 per mile of the Division, and they are secured by a First Mortgage on that Division of the railroad, and on the granted lands applicable thereto, being very nearly 5,250,000 acres, in the Territories of Dakota and Montana. They are required to be deposited with the Farmers' Loan and Trust Company, by whom they are to be countersigned and redelivered to this Company, ratably, on the completion of each section of twenty-five miles of road. Two million dollars of these Bonds and the same amount of

Preferred Stock have been offered by the Company, and have been taken for $2,000,000 cash, payable on call, and $1,021,980 of which has already been paid in. These $2,000,000 of Bonds are to be issued to the subscribers or their assigns, ratably as they are, from time to time, received from the Trust Company, and the $2,000,000 of the Preferred Stock on full payment by him or them of his subscription, and not otherwise.

The construction of the Pend d'Oreille Division, which extends from the Columbia River to Lake Pend d'Orielle, 209 miles more or less, is about to be commenced; the iron for 30 miles thereof is now on the way to the Pacific Coast in sailing vessels. The means to complete this Division are to be provided by the issue of Bonds not to exceed $20,000 per mile thereof, and Preferred Stock. These bonds are to be secured by a first mortgage on that Division of the railroad and on the granted lands applicable thereto, being nearly 5,500,000 acres, in the Territories of Washington and Idaho and in the State of Oregon. They are to be deposited, countersigned, redelivered, and issued as above. $2,000,000 of these Bonds and $1,400,000 of the Preferred Stock have been offered by the Company, and have been taken for $2,000,000 cash, payable on call, the first installment of which (10 per cent) will be due Aug. 1, 1879.

In both cases, on the payment by the subscribers or their assigns of each or any installment or installments at the time the same shall become due, *assignable certificates*, bearing six per cent interest, are issued to them for the proportionate amount of Bonds to which such payment will entitle them.

CAPITAL STOCK (Shares $100 each) ..1,000,000 shares
Viz: Preferred Stock..510,000 shares
And Common Stock....490,000 shares

The Preferred Stock is receivable at par for the company's lands east of the Missouri River, and there have been so received and extinguished of Preferred Stock..... 72,000 shares
Preferred stock now issued and to be issued .....438,000 shares

Of these 438,000 shares of Preferred Stock the Company owns, as part of its assets, 80,000 shares, 20,000 shares whereof have been appropriated for the construction of the Missouri Division, and 14,000 shares whereof have been appropriated toward the construction of the Pend d'Oreille Division, as above stated, leaving 46,000 shares of the Preferred Stock belonging to the company to be used in aid of the further construction of the road.

Of the 490,000 shares of the Common Stock there were entitled to be issued 299,526 shares, and of this amount, 283,844 shares have been issued, and 15,682 shares are being issued. The remaining 190,474 shares of the Common Stock are to be issued.

DIVIDENDS CASHED. ASSESSMENTS PAID.

A GOOD PLAN

Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and *co-operated* as a *mighty whole*, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from $5 to $5,000, or more, can be used successfully. N. Y. *Baptist Weekly*, September 26th, 1878, says: "By the combination system $15 would make $75, or 5 per cent; $50 pays $350, or 7 per cent; $100 makes $1,000, or 10 per cent on the stock, during the month, according to the market." *Frank Leslie's Illustrated Newspaper*, June 29th: "The Combination method of operating stocks is the most successful ever adopted." *New York Independent*, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co." *Brooklyn Journal*, April 29th: "Our editor made a net profit of $101 25 from $20 in one of Messrs. Lawrence & Co.'s combinations." New circular (mailed free) explains everything. Stocks and bonds wanted. Government bonds supplied. Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

ALEX. FROTHINGHAM & CO., BANKERS AND Stock Brokers, No 12 Wall st., buy and sell stocks on the New York Stock Exchange and carry the same as long as desired on a deposit of three per cent. Careful attention given to orders for investment from $25 upwards in "Puts" and "Calls," which frequently pay from ten to twenty times the amount invested. Explanatory Circular and their Weekly Financial Report sent free on application.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,
(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)
Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874, says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in *its* insulating qualities."

For Sale by all dealers in Telegraphic Materials.
